

American Denturist College welcomes enrollment from all students, regardless of the state or jurisdiction in which they reside. The College has reviewed the Denturist Diploma Program to determine whether the curriculum meets the educational requirements for professional licensure, certification, or endorsement in each U.S. state. This review includes any program that a prospective or enrolled student might reasonably believe leads to professional credentials.

The chart below indicates whether each state is a **Regulated State**—one that requires licensure or formal regulation for denturists—or an **Unregulated State**, which does not require licensure or does not have an established regulatory framework for the profession.

Please note that this disclosure does not guarantee that any state licensing agency or regulatory authority will approve an individual’s application for licensure or certification. State requirements may change at any time and could affect eligibility after this disclosure is issued.

All prospective and current students are responsible for confirming the most up-to-date licensing or regulatory requirements directly with their state’s professional licensing board or relevant regulatory authority.
